3.5 DOSAR 652.216-71 PRICE ADJUSTMENT (AUG 1999)

(a) The contract price may be increased or decreased in actual costs of direct service labor which result directly from laws enacted and effective during the term of this contract by the Argentine Government. Government. Direct service labor costs include only the costs of wages and direct benefits (such as social security, health insurance, unemployment compensation insurance) paid to or incurred for the direct benefit of personnel performing services under one of the contract line items listed in Section 1 – The Schedule of this contract. Price adjustments will include only changes in direct service labor costs incurred in order to comply with the requirements of the law. No adjustment will be made under this clause with respect to labor costs of personnel not performing direct service labor under the categories of Section 1 – The Schedule, nor for overhead, profit, general and administrative (G&A) costs, taxes or any other costs whatsoever (b) For the contracting officer to consider any request for adjustment, the contractor shall demonstrate in writing: (1) That the change in the law occurred during the term of this contract and subsequent to the award date of this contract; and, (2) That the change in the law could not have been reasonably anticipated prior to contract award; and, (3) How the change in the law directly affects the contractor's costs under this contract. (c) The contractor shall present data that clearly supports any request for adjustment. This data shall be submitted no later than 30 calendar days after the changes in the law have been made public. This data shall include, but

not be limited to, the following: (1) The calculation of the amount of adjustment requested; and, (2) Documentation which identifies and provides the appropriate portions of the text of the particular law from which the request is derived. (d) In order to establish the change between the requested adjusted rate and the original rate, the contractor shall support the appropriate data and composition of the original rate and the requested adjusted rate. This shall include details regarding specific hourly rates paid to individual employees. For contracts paid in U.S. dollars, the contractor's request for price adjustment shall present data reflecting: (1) The exchange rate in effect on the date of the contractor's proposal that was accepted for the basic contract; and (2) The current exchange rate and its effect on payment of workers in local currency. The allowable adjustment shall be limited to the extent to which increases in direct service labor costs due to host country law changes are not offset by exchange rate gains. (e) Only direct cost changes mandated by enacted laws shall be considered for adjustment under this contract. Changes for purposes of maintaining parity of pay between employees at the minimum mandated levels and employees already paid at levels above the newly mandated minimums shall not be considered. Therefore, if the contractor elects to increase payments to employees who are already being paid at or above the mandated amounts, such increased costs shall be borne solely by the contractor and shall not be justification for an increase in the rates under this contract. (f) Any request for adjustment shall be presented by signature of an officer or general partner of the contractor having overall responsibility for the conduct of the contractor's affairs. (g) No adjustment shall be made to the contract price that relates to any indirect, overhead, or fixed costs, profit or fee. Only the changes in direct service labor wages (and any benefits based directly on wages) shall be considered by the U.S. Government as basis for contract price changes. (h) No request by the contractor for an adjustment under this clause shall be allowed if asserted after final payment has been made under this contract. (i) This clause shall only apply to laws enacted by the Government of the Argentine Republic meeting the criterion set forth above in paragraph (b). No adjustments shall be made due to currency fluctuations in exchange rates.

4. ORDERS.

All requests for shipments or performance of individual jobs under this contract shall be issued via an order placed by the Contracting Officer. This task order will contain the following information:

- (a) Name of contractor
- (b) Contract number
- (c) Date of purchase
- (d) Purchase number
- (e) Name of person placing order
- (f) Itemized list of shipment and services furnished
- (g) Quantity, unit price, and total price of each item or service, less applicable discounts

Orders may be placed orally initially, but must be followed up in writing within 48 hours via issuance of a task order. Only a Contracting Officer may place an order, either orally or in writing.

(1) As the need for services arises, the Government will develop a price estimate. If the estimate does not exceed US\$2500, the Government will follow the procedures in paragraph (2) below. If the estimate exceeds US\$2500, the Government will follow the procedures in paragraph (3) below.

(2) Orders not exceeding US\$2500 - The Government will select a contractor for issuance of the order. This decision will be based on the Government's best interests, which may include factors such as estimated price and past performance record.

(3) Orders exceeding US\$2500 - Unless one of the exceptions in paragraph (5) below applies, the Government will follow one of the following two scenarios:

(a) The Government will request each contractor to perform, AT NO COST TO THE GOVERNMENT, a pre-shipment survey after which the contractor will present an estimate to the Government. Whether or not the contractor is selected for an individual order, the Government shall not be liable for any claim from the Contractor for the costs of performing the pre-shipment survey. Selection will be based on a combination of estimated price and past performance information; or

(b) If the Contracting Officer can establish which Contractor's prices will result in the lowest price for the individual order without requesting a pre-shipment survey, the Government will make its award selection based upon the prices set forth in the contract and past performance information gained as a result of contractor performance under this contract.

(4) Regardless of whether the procedures in paragraph (2) or (3) above were followed, selection of contractors shall not be protestable to GAO under Subpart 33.1 of the Federal Acquisition Regulation, except on the grounds that the order increases the scope, period, or maximum value of the contract. However, the Department of State does have an Acquisition Ombudsman who will review complaints by contractors to ensure that all contractors are afforded a fair opportunity to be considered for these task orders, pursuant to the procedures for award of task orders established herein.

(5) Exceptions to the procedures in paragraph (3) above:

(a) The agency need for the required services is of such urgency that providing such competitive opportunity would result in unacceptable delays;

(b) The order should be issued on a sole-source basis in the interest of economy and efficiency as a logical follow-on to an order already issued under the contract, provided that all awardees were given a fair opportunity to be considered for the original order.

The scale must be officially certified by proper authorities of the Argentine government as accurate and must continually display documentation in testimony thereof. All official certificates of accuracy must be periodically updated and recertified to ensure there is no lapse of certification.

The COR or an appointed representative may be present at the scale site when any shipment weight is taken to witness the accuracy of the reading. The contractor shall submit to the COR with each invoice a weight certificate, signed by the Government employees for whom services were rendered, and the name of any Government employee who witnessed the weight reading.

When the Net Weight of a shipment has not been determined by actual measurement before shipment occurs, for payment purposes the Net Weight shall be defined as two thirds of the Gross Weight of the shipment. With the invoice for each shipment, the contractor shall submit a written justification describing why the shipment could not be weighed before it was shipped.

20. QUALITY ASSURANCE PLAN (QAP).

This plan provides an effective method to promote satisfactory contractor performance. The QAP provides a method for the Contracting Officer's Representative (COR) to monitor contractor performance, advise the contractor of unsatisfactory performance, and notify the Contracting Officer of continued unsatisfactory performance. The contractor, not the Government, is responsible for management and quality control to meet the terms of the contract. The role of the Government is to monitor quality to ensure that contract standards are achieved.

ATTACHMENT 2 PACKING SPECIFICATIONS

1. CONTAINER SPECIFICATION:

- (a) Containers to be used for export shipments of effects under this contract must be soundly constructed of waterproof plywood, lined with a waterproof barrier, and reinforced with an inside framework. Containers shall be designed to eliminate damage to the effects from exposure to inclement weather, salt water, salt atmosphere, and possible violent external forces incident to ocean and/or inland transportation and rough handling, so as to insure safe and undamaged arrival of the effects at the destination. Caulking compound must be used when wooden container panels are assembled to insure watertight joints.

The amount of such discount will vary according to the extent of repair needed, or other conditions of the used containers, and shall be determined on an individual case basis upon mutual appraisal by the contractor and the COR.

2. STANDARDS FOR PACKING HOUSEHOLD EFFECTS (HHE) AND UNACCOMPANIED AIR BAGGAGE (UAB)

3 WRAPPING AND PACKING

The Contractor shall wrap all articles subject to breakage, denting, scratching, marring, soiling, chafing, or damage at the specified pickup site, using wrapping material to prevent such damage. The Contractor shall use the following guidelines:

- (b) Cover floors of residences with drop cloths or canvas to protect the surface while work is in progress.
- (c) Keep packing materials together; do not allow them to become scattered throughout the house.
- (d) All packing materials, boxes, and containers must be dry, clean, in sound condition, free of substances that might damage the contents, and of sufficient strength to protect the contents.
